ANY NEW JUDAICA CATALOGUES?
In previous newsletters I have mentioned about the various Judaica themed stamp catalogues that are available, as well as other Judaica stamp related publications. However, I was wondering if any other Judaica stamp related catalogues and publications have appeared this year or so, that I am not aware of.

If any member has any information to share on new publications, then I would be grateful to know – and share with other members too.

ANOTHER QUIET MONTH!
It seems to be a quiet couple of months on the Judaica Scene, with virtually no new, noticeable Judaica issues.
Of course, I may be missing some remotely related Judaica issues – But if this is the case then no doubt you will let me know.

I have come across no Judaica news either – and I have not even received any news or information to report from any of the Society members.
As always, if you have any Judaica information, then please let me know, and I can then share it in a forthcoming Newsletter.

RECENTLY PURCHASED JUDAICA COLLECTION – AND DUPLICATION.
I have been asked by a number of members, if it would be possible to supply through the society, recently issued Judaica themed stamps from countries around the world.

For those that may not be aware, for a number of years now, when purchasing Judaica themed stamps for myself, at the same time I have purposely obtained and purchased additional sets of the same issue.
This has resulted in me forming a Judaica duplicates stock-book and stock-list, where I have duplicates available for sale. Infact a number of members have already purchased items from me.

A couple of weeks ago, I was fortunate to purchase a Judaica collection from
overseas.
The collection, consisted of Albert Einstein, Bible, Sheetlets with biblical quotes etc, etc., There was even “Back of the book” items such as an El Al Luggage Label, and National Stamp Exhibition Labels from Israel, and a couple of JNF labels etc, etc., – which I have listed at the end of the Judaica list.
There was also a lot of duplication as well.

As a result, I have listed a lot of this duplication in my Judaica lists.
As well as the newsletter, I am sending everyone by e-mail a copy of this list.
Look through the list carefully, as there are some interesting items.
The only items from the collection that I have not sorted through or listed are the large amount of Russian, Hungarian and Polish stamps.
If any members have any special requirements from these countries then please let me know your wants, as there is too many of these issues to list.

CAN YOU HELP?
Amongst the Judaica collection that I purchased, there is a set of stamps that is a mystery to me.
There was a set of 3 stamps from Cuba, issued in 1961.
In the stamp catalogue it is described as “Declaration Of Havana” and depicts Jose Marti.
The question is:- What has this issue got to do with Judaica?.

Infact this set is also “listed” and depicted in Reuter’s Judaica stamp catalogue. Although in his catalogue, although it is clearly depicted, the listing to it is incorrect, as it states “Oppenheimer, J. Robert, Rosenberg, Ethel, Julius” which relates to another Judaica stamp issue, and the catalogue number to the Havana stamp is incorrect too.

Could anyone please tell me if what the Judaica connection is with the “Declaration Of Havana” stamp?.
